

ECO & ENVIRONMENTAL ENGINEERING CLUB

We know that we are an integral part of the Environment we live in and the solution to many environmental problems lie in our attitude towards environment. The best way to bring about a change in this attitude in society is through children. Here comes the role of Eco Clubs that play a very important role in creating environmental awareness among the future generation.

In view of this passion and zeal for keeping environment clean and to develop the qualities of leadership, self-reliance and team work among students the '**ECO & ENVIRONMENTAL ENGINEERING CLUB**' was started at SVHEC..

OBJECTIVES

Eco & Environmental Engineering Club is a platform through which we get the knowledge about Environment. Eco & Environmental Engineering Club works as a team to improve Environmental conditions by offering programs & activities related to reducing pollution, planting trees , promoting sound environmental behavior etc..,

FUNCTIONS AND ROLES

- To Encourage students to keep environment clean.
- To Sensitize the students to minimize the use of polluting products.
- To motivate students to use Eco friendly things which includes use of LPG, paper bag, Gas pipe line, save electricity.
- To make children aware of environment problems and solutions
- To involve children in action based programmes related to various problems prevailing in their surroundings.
- The club has a vision to keep our environment completely free from pollution and make our world a better place to live in.
