DEPARTMENT OF MECHANICAL ENGINEERING

Action Taken Report of 5th BOS Meeting held on 18.12.2025

S.No	Suggestion by BOS Members	Action Taken
1.	The University Nominee suggested integrating the practical exercises with the theory course for Units III, IV, and V of 25MEI21 - Engineering Graphics. The relevant theory topics should be taught first and followed by the corresponding practical exercises to strengthen the linkage between theory and practice.	The syllabus has been revised to integrate the theory and practical components in Units III, IV, and V. Practical exercises are now aligned with the respective theory topics, enabling students to apply concepts immediately after learning them and improving understanding of 25MEI21- Engineering Graphics.
